

Benjamin Moore®

PREMIUM COMMERCIAL COATINGS

# Super Spec® Green: The environmental answer for your commercial project.

## Qualifies for LEED® credit

- A green alternative for your coatings project
- Dries fast with low odor for same-day return-to-service
- Dependable performance, application and appearance
- Available in over 3,000 colors

A LOW ODOR, LOW-VOC INTERIOR COATING  
FOR NEW CONSTRUCTION AND REPAINT WORK

Today, more and more job specifications call for low VOC products that meet or exceed environmental standards such as LEED. You can rely on Benjamin Moore Super Spec® Green interior paints to provide outstanding coating performance along with meeting these requirement standards. The Super Spec® Green interior product line includes a primer, and three sheen levels; flat, eggshell and semi-gloss.

Benjamin Moore & Co. offers these advantages:

- A network of over 4,200 independent retailers and more than 200 field and architectural representatives in North America for the support you need.
- An architectural support program to be sure the right products are specified for your job.
- On-site specification/inspection help for those complicated or difficult jobs.
- Internet access to MSDS and Technical Data sheets available 24 hours a day at [benjaminmoore.com](http://benjaminmoore.com).
- A full selection of color tools.

Benjamin Moore is a proud member of the U.S. Green Building Council, a nonprofit organization of building industry leaders working to make environmentally responsible, profitable, and healthy buildings in which to live and work.

Benjamin Moore also participates in Coatings Care, a paint and coatings industry program created to ensure the safe selection, handling, use, and disposal of chemical components in paint products.
